I. EXECUTIVE SUMMARY

We are preparing a landmark petition to the United Nations Special Committee on Decolonization (C-24) seeking the re-inscription of the former British Southern Cameroons as a Non-Self-Governing Territory. This legal-historical petition aims to rectify the 1961 violation of our people's right to self-determination—the root cause of today's devastating armed conflict. We seek strategic partnerships and support to ensure this petition is forensically documented, legally impeccable, and effectively presented to trigger UN action toward a peaceful, legal resolution.

The Ask: We invite your organization to partner with us by providing [select one: legal expertise / evidence verification / advocacy partnership / funding] for this urgent initiative.

II. THE PROBLEM: AN UNRESOLVED HISTORICAL INJUSTICE FUELING ATROCITIES

The British Southern Cameroons was a UN Trust Territory (1946-1961). Its decolonization was fatally flawed:

1. **Violation of Self-Determination (1961):** The UN-supervised plebiscite denied the option of sovereign independence.
2. The subsequent **union with La République du Cameroun lacked a valid international treaty**
3. La République du Cameroun invaded and established a *de facto* annexation of Southern Cameroon in October 1961
4. **Consolidation of Occupation (1972-1984):** The unilateral abolition of the federation (with no union treaty) and renaming of the country erased Southern Cameroon's political identity.
5. **Current Genocidal Conflict (2017-Present):** La République du Cameroun's violent response to peaceful protests in 2016 ignited a war. UN reports document **war crimes, crimes against humanity, and acts bearing the hallmarks of genocide:** over 6,000 killed, 800,000 displaced, 400+ villages burned, systematic torture, and a humanitarian blockade.

Core Issue: This is not simply a civil war. It is the violent consequence of an unfinished decolonization process. Addressing the symptom (violence) without the cause (illegal annexation) guarantees perpetual conflict.

III. THE SOLUTION: A LEGAL PETITION TO THE UN DECOLONIZATION COMMITTEE

Our project will submit a formal petition to the UN C-24, requesting it to:

1. **Re-inscribe** the Southern Cameroons on the List of Non-Self-Governing Territories.

2. **Recommend** that the UN General Assembly establish a process to complete the territory’s self-determination under UN supervision.

Why the C-24?

- **Mandate:** It oversees UNGA Resolution 1514 (Declaration on Decolonization).
- **Precedent:** It maintains the list of territories awaiting full self-government.
- **Procedure:** It accepts petitions from peoples of non-self-governing territories.
- **Outcome:** A positive finding creates an irresistible momentum for broader UN action (Security Council, ICJ).

The Petition will demonstrate:

- **Historical Illegality:** The 1961 process violated the UN Charter.
 - **Contemporary Suffering:** The annexation’s consequence is a human rights catastrophe.
 - **Legal Right to Remedy:** The continuing right to self-determination is *erga omnes*.
